Memo 05

W39.7 | Sunday, October 2, 2022 | 11:44 PM

The two main key take-aways of Johanna Rothman's "Create Your Successful Agile Project: Collaborate, Measure, Estimate, Deliver" chapter 6, Team Deliver Features, are the product development and manageable work.

Unlike traditional, waterfall, development where work is all pre-planned, scoped, and expected to be functional at the end of a particular time frame agile advocates that a project deliver value through the architecture. That development should not be done in chunks, but in phases.
